LINDOKUHLE **NINI**

Applications Development Graduate

liindokuhlenini@gmail.com | 062-343-0474 | personal website link

Summary

Software Developer graduate with 10 months of experience as a Software Developer Intern and five months as a Software Tester Intern. Possesses a diploma in Applications Development and currently studying towards an advanced diploma in Applications Development. Seeking for an entry-level position in a dynamic company that values my analytical and technical skills and allows me to expand my knowledge.

Education

Cape Peninsula University of Technology

Higher Certificate: Information and Communication Technology	Feb 2018 – Dec 2018
Diploma: ICT in Applications Development	Feb 2019 – Nov 2021
Advanced Diploma: ICT in Applications Development	Feb 2022 – Dec 2022

Skills

Languages:	Java, JavaScript, HTML/CSS, Kotlin
Technologies:	Tomcat, JSP, NodeJS, Express, MySQL, MongoDB, Git, Jetpack Compose
Design:	Figma, Adobe XD, Marvel App, Photoshop

Professional Experience

Software Testing Intern

Siyaya Skills Institute   April 2022 – August 2022

Software Testing learnership

I learned the fundamentals of software testing in a classroom environment that was facilitated by an experienced software tester. While also gaining real experience.

Software Developer Intern

Microsoft App Factory – OptiSolutions   July 2021 – March 2022

Program by Microsoft to improve the state of software developers in South Africa

I worked in a team-oriented environment with other interns for all aspects of software development (design, implementation, test, and maintenance). I had the responsibility of completing tasks that were assigned to me and to learn a variety of new skills.

Sales Associate

MINISO   November 2018 – March 2019

Retail store at Canal Walk

I advised customers and answered all queries, from stock availability to details of special offers and product prices.

Certifications

Microsoft Azure Fundamentals
This certification gave me foundational knowledge of cloud services and how those services are provided with Microsoft Azure.

Microsoft Azure AI Fundamentals
This certification assessed my fundamental knowledge of Machine Learning and Artificial Intelligence.

Projects

Personal Website
https://famous-fudge-312bc0.netlify.app

- Designed and coded my own personal website from scratch using HTML, CSS, and JavaScript.
- Mobile-first with responsive web design principles.

e-Commerce Website
https://github.com/LindokuhleNini/ECommerceWebsite

- Designed and developed an e-commerce website using Java, JSP, and MySQL.
- Mobile-first with responsive web design principles.
- Customer is able to browse through products, add items to cart, place orders, generate bill, and contact Admin.
- Admin is able is edit products, add new products, read messages from customers, view incoming orders and update order status.

Vaccination Registration Portal Clone
https://github.com/LindokuhleNini/vaccination-registration-portal

- Developed a clone of the vaccine registration portal using JavaScript, MongoDB, NodeJS, and the Express framework.
- Has client side and a server side.
- The user fills out a few forms, just like the real Vaccination Registration Portal, and then the data is saved to a database.
- The difference is that I also had to include a Whatsapp chatting bot for users who prefer to register via Whatsapp.
